

CERTIFICATE

T-LOC is a steel reinforcement of the T ferrule that will prevent the termination from splitting close to the eye. Especially when using high performance wire ropes of grade 2160. It is also a reinforcement when using thimble solutions that creates wide eye angle.

This is a patented solution owned by Talurit AB. Patent No. 8.966.737 and ZL201080067001.8 for instance. T-LOC is manufactured from mild steel.

Talurit AB hereby certify that if T-LOC is mounted together with T ferrule on a wire rope in case 3 nearest the eye this termination will be in accordance with EN 13411-3 even for rope grade 2160.

It is confirmed by this certificate that T-LOC in combination with T ferrule from Talurit AB conforms to the above mentioned standard.

Application with special high performance ropes and special thimble solutions should always be tested to verify strength.

It is also confirmed that if T-LOC from Talurit AB is processed in a manner as per TALURIT Ferrule Securing Instruction and instruction as per data sheet, these products are covered by a Product Liability Insurance of a value up to SEK 30 million.
